

## **Instructions**

Dear Friends,

Please forward this message to everyone you know.

I believe **adoptive parents** can help send a message to the President about our adopted children. They are precious. They were allowed to live!

I am starting a **postcard campaign** for all adoptive parents to send a postcard to the President voicing our opinion about adoption not abortion. All you have to do is pass this message on to your friends and neighbors along with a copy of the postcard pdf file that I have created for your convenience and is attached to this message. Here are the instructions:

1. Print out the pdf file attached to this message onto cardstock paper.
2. Cut out as many postcards as you need.
3. Glue a 4x5 photo of your adopted child onto the blank side of the postcard.
4. Fill in the blanks, put a \$.27 stamp on the post card and send in the mail today!
5. It is easy and can be quite effective.

I went with a postcard so the White House mail room doesn't have to worry about opening envelopes that may have security issues. The photo is important. We want the President to see those **beautiful and living faces**. We need to show him that there are thousands and thousands of adoptive children in the world and this is a better alternative than abortion.

Please send this email to any adoptive families that you know. Thankyou!
